

March 30, 1985

Dear James,

We are still a very small but highly active group of Atari users. I have a personal library of over 1500 programs. And I am also an Atari dealer. So if there is any hardware you are looking for let me know. I am looking to get the 130XE computers in next week sometime.

I don't know what your feelings are on trading software, but we do it all over the country and have about any program you mite want.

We do at times run a BBS here, but at present our modem is out to be repaired.

I have enclosed my phone #618-895-3241 this is my home and work number. So you can catch me here about any time except monday night, tuesday night, and saturday night. These are bowling and fire meeting nights.

Being a small group we have no set meeting nights, but if you want to call I am sure we could get together some time.

\$150 XE 130
\$150 monitor
